Introduction

We need to make sure that the way we deliver services does not have an adverse impact on people from different equality groups, both customers and employees.

The Equality Impact Assessment (EqIA) is a process that helps you to undertake a full assessment of the council's functions and policies.

The EqIA will help you to assess whether we are likely to have an adverse impact on the diverse groups of people within Argyll and Bute. The EqIA will also help the council to make the most of opportunities to promote good relations between different groups. The EqIA will help to ensure that the council meets the commitments set out in its Equality and Diversity Policy.

The HR &OD team hope you find the EqIA process easy to use. If you have any suggestions for improvement please send them to:

Summary

An Equality Impact Assessment involves assessing the likely or actual effects of policies or services on people in respect of their race, gender, disability, age, religion or belief, sexual orientation, marriage and civil partnership, gender reassignment and pregnancy and maternity.

Stage 1 - Rapid Impact Assessment (RIA)

This is a short exercise that involves considering the overall policy or service and deciding if it is relevant to equality. The basic rule is that if people are affected by what we do then we need to carry out an equality impact assessment.

Stage 2 – carrying out a full equality impact assessment

Stage 2 examines in detail the proposal to find out what kind of equality impact there might be and which groups of people it will affect most. There are 8 steps in the process:

- Step 1 – identify the purpose of your policy or service
- Step 2 – assess the impact using information and evidence
- Step 3 – remove or reduce a negative impact
- Step 4 – make sure the policy or service promotes equality
- Step 5 – arrange to monitor and evaluate the policy or service
- Step 6 – sign off the equality impact assessment
- Step 7 – arrange to publish the equality impact assessment
- Step 8 – review the policy or service and update the equality impact assessment

What is an equality impact assessment and why do we need to do this?

The equality impact assessment (EqIA) is a process to ensure that the council does not discriminate and where possible the council uses opportunities to promote equality and good relations between groups.

An EqIA involves anticipating the consequences of the council's functions and policies on different people, making sure that, as far as possible, any negative impacts are minimised or removed and that we make the most of any opportunities for promoting equality.

Carrying out an EqIA involves assessing the likely (or actual) effects of policies on people in respect of what are known as protected characteristics (Equality Act 2010). The protected characteristics are: race, gender, disability, age, religion or belief, sexual orientation, marriage and civil partnership, gender reassignment and pregnancy and maternity.

To help with the assessment process, 2 models have been developed for EqIA's. There is a Rapid Impact Assessment (RIA) which should be completed for all new and revised policies or changes to service delivery models. The second model is the full impact assessment which should be completed if it becomes apparent through completing a RIA that a protected characteristic or groups are likely to be negatively impacted upon.

Under the Equality Act 2010 the council, as a public body, is required to have due regard to the need to:

Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act;

Advance equality of opportunity between people who share a protected characteristic and people who do not share it; and

Foster good relations between people who share a protected characteristic and those who do not.

Having "due regard" means giving appropriate weight to equality in proportion to how relevant it is to a particular policy. A robust and detailed EqIA provides the necessary evidence that the council has given due regard to equality issues before taking a decision.

The word policy is used throughout the assessment to include the full range of policies, functions,

For this reason, assessing the impact should be carried out as part of the development and planning stage and afterwards as part of the review stage.

<p>7. Is there a need to collect further evidence or to involve or consult protected characteristic groups on the impact of the proposed policy?</p> <p>(Example: if the impact on an individual or group is not known what will you do to gather the information needed and when will you do this?)</p>	<p>In line with the Council's parking policy, we will:</p> <p>Ensure adequate provision is maintained for disabled drivers, whose dependence on cars is often critical to their quality of life.</p>

Stage one: Rapid Impact Assessment

Part 2: Protected Characteristics

Which protected characteristics will be positively or negatively affected by this policy, procedure or strategy?

NB Please place an X in the box which best describes the "overall" impact. It is possible for an assessment to identify that a positive policy can have some negative impacts and visa versa. When this is the case please identify both positive and negative impacts in Part 3 of this form.
