Indicator CSS101_02 Increase public use of corporate social media sites in the categories of information: council news, community success and general use.

DELIVERING OUR OUTCOMES OUR KEY PERFORMANCE INDICATORS

Indicator CSS101_03 Increase the percentage of telephone service enquiries received by Customer Service Centres that are dealt with at the first point of contact by the Service Centre.

Why measure this? This illustrates how we aim to get every customer contact 'right first time' through our Customer Service Centres without having to transfer the query to officers within the specific service.

Commentary This figure is based on the number of calls made, answered and transferred. Total number of calls received = 29,25,746 answered at first point of contact. First point of contact means that the customer service agent has sufficient information at hand to answer the question for the caller there and then without having to refer the service for the answer.

This indicator is above target and performance has improved since the last reporting period

Indicator CSS112_01 Increase the use of #abplace2b and .abplace2b.scot.

Why measure this? These budget marketing resources promote the area as a great place to live and visit. Increasing their use by ourselves and others is increasing awareness of Argyll and Bute.

Commentary Based on Instagram alone the public/council use of #abplace2b continues to grow. The value in this is that it draws people's attention to information, from jobs to lifestyle, showcasing the area as a great place to live and work.
